

FFThemtec VersoMP

Highlights:

- Semi-automatic roll hemming of the wheel housing
- Short commissioning times
- Standardized modular system
- Suitable for steel and aluminum
- Use in prototype construction, pre-series and small series as well as manual series production
- Pneumatic drive
- Relief for the skilled worker

Basic Data Hemming Frame

Length	approx. 415 mm
Width	approx. 900 mm
Height	approx. 1100 mm
Weight	approx. 46 kg

Basic Data Roller Hemming Head

Length	415 mm
Width	400 mm
Height	600 mm
Weight	17 kg

Operating Conditions

Air humidity	5 - 95 %
Ambient temperature	10 - 40 °C

Properties

Roller hemming head can be used flexibly with several derivatives
Type-specific hemming frame
Area of application: sidewall/wheelhouse
Various hemming geometries possible
